

Phragmites Workshop
Wednesday, February 20, 2008
9:00 a.m. to 4:00 p.m.
Phoenix Rooms, UW-Green Bay Student Union

- 9:00 Welcome and Introductions, Kendra Axness, Basin Educator for Natural Resources, UW-Extension
- 9:10 Case Studies
- *Phragmites Control on Door County State Natural Areas*, Mark Martin, Designation and Public Lands Specialist, WDNR
 - *West Shore Green Bay Phragmites Control Methods*, John Huff, Wildlife Biologist, WDNR
 - *Results of a Large-Scale Helicopter Herbicide Application in Lower Green Bay*, Gary Van Vreede, Biologist, USFWS
- 10:25 Break
- 10:40 Case Studies
- *Control and Management of Phragmites on the Oneida Reservation*, Betsy Galbraith, Environmental Restoration Specialist, Oneida Tribe of Indians
 - *The Partnership Effort*, Dick Campbell, Administrator of BC Enterprises
- 11:30 Lunch (on your own)
- 12:30 Case Study
- *Evaluation and Monitoring of Phragmites australis control measures on the west shore of Green Bay and other sites in eastern Wisconsin*, Devany Martin, Graduate Student, UW-Green Bay. With introductory remarks by Ursula Petersen, Endangered Species Habitat Program Manager, WDATCP
- 12:55 Laws overview: Kristy Rogers, Water Regulation and Zoning Specialist, WDNR
- 1:10 Discussion:
1. What can we take away from the case study presentations regarding management and control techniques?
 2. Based on the current "state of the art," what are the consistent messages we should share with beach managers and the public regarding techniques?
- 2:10 Break
- 2:25 Discussion:
1. What projects will you be working on next year, and what are the opportunities for collaboration?
 2. What are the needs related to this issue (research, management, monitoring, outreach/education)?
- 3:45 Wrap-up
- 4:00 Adjourn
